

WEST EARL SEWER AUTHORITY

On Wednesday, August 12, 2020 at 7:00 P.M., Mike Reed and Dave Noyes arrived for the regularly scheduled meeting of the West Earl Sewer Authority. Since a quorum was not present, no meeting was held.

Representatives from ELA, Hoover Builders and DENMAR properties also attended to discuss their request for relief from the Authority's requirement to install gravity sewer on Cocalico Creek Road for the affected projects.

Having no quorum, Chairman of the Authority Mike Reed explained that no decision could be rendered. The representatives will likely return to the September Authority meeting.
